PROFESSIONAL SUMMARY

Informatics Engineering graduate with hands-on experience in fullstack web and mobile application development. Skilled in building RESTful APIs, managing relational databases, developing responsive user interfaces, and supporting application testing and deployment. Experienced with Laravel, Node.js, Express.js, Vue.js, Flutter, and MySQL through academic, internship, and real-world project development. Familiar with AI-assisted development practices for coding, debugging, documentation, testing, and productivity improvement. Passionate about software engineering, backend development.

SKILLS

Technical Skills : Vue.js, Flutter, HTML, CSS, JavaScript, Tailwind CSS, Laravel, Node.js, Express.js, MySQL, MongoDB

AI & Productivity: : AI-assisted Development, Prompt Engineering, Generative AI Tools

Tools & Testing : Git, GitHub, Postman, Figma, Docker, Manual Testing, Bug Reporting, Regression Testing

Programming Languages:: JavaScript, Dart, PHP, Python

EXPERIENCE

Fullstack Developer at Kedai Sepijak

Sept 2025 – Jan 2026

Purwokerto, Indonesia – Contract

- Developed and maintained a **full-stack cafe management website** using **Vue 3 (Composition API)**, **Express.js**, and **MySQL**.
- Built **RESTful API** with **Express.js** to handle menu, voting, and customer feedback data, connected to **MySQL** relational database.
- Developed **3 core frontend features** — menu display, voting system, and customer feedback — using **Vue 3 components** and **JavaScript**.
- Performed **frontend optimization**, **regression testing**, and troubleshooting to improve website stability before deployment.
- Created **project documentation** and coordinated feature implementation with the team using **Git & GitHub**.

Fullstack Developer at Dinas Komunikasi dan Informatika

Jul 2025 – Aug 2025

Dairi, Indonesia - Internship

- Built and maintained a **web-based Point of Sale system** using **Laravel (MVC)** to support retail transaction operations.
- Designed **backend logic** and managed **MySQL database structures** for product, transaction, and reporting data.
- Developed a **cross-platform mobile app using Flutter** to extend POS functionality for mobile cashier access.
- Assisted in **software configuration**, troubleshooting, **testing**, and **deployment preparation**
- Created **technical documentation** and user guidance to support system usage across web and mobile platforms.
- Monitored application functionality and collaborated with the team to **resolve technical issues**.

EDUCATION

Jul 2022 – Jan 2026

Universitas Telkom Purwokerto

Bachelor Degree in Informatics Engineering

GPA: 3.75/4.00

ORGANIZATIONAL EXPERIENCE

Telkom University Esports

Jan 2025 – Dec 2025

Coordinator of E-Football Division

- Coordinated training schedules and managed team participation in internal and external tournaments.
- Managed division activities, registrations, and communication with team members.
